

2017 National WebEx coding training calendar

Optum offers a variety of coding and documentation courses for Medicare Advantage and, also, a risk adjustment introductory course for the Affordable Care Act (ACA).

Beginning in 2017, we now offer classes for both billers and coders (with CEU credits) and separate classes specifically for providers (without CEU or CME credits). Please see the applicable tables below.

Registration

1. Click on the link below of the session you would like to attend. Choose your time zone and click "OK".
2. A new window will open. Scroll to the bottom of the invitation and fill out registration form. Select "register".
3. You will receive a confirmation email with instructions for joining the session. To join the session, please see "starting your training session" below. *Please note that each registration confirmation link is unique to the participant, multiple users can not share a link as the system will only allow one user to log in.*

Troubleshooting information for those who do not receive a registration confirmation link

1. Check with your IT administrator to ensure that your "Spam" filter will allow emails from the following two addresses:
mda.webex.com and *.webex.com
2. Once these filters have been changed you can call WebEx tech support at 866-569-3239 and ask them to resend the confirmation email.

Troubleshooting information for those unable to access the WebEx via computer

1. Go to <https://www.webex.com/test-meeting.html> to test if your computer is compatible with WebEx. Install additional programs needed.
2. If still unable to access the training, Contact WebEx tech support: 866-569-3239. You will need to provide the session ID number

Starting your training session

1. Click on the link in the confirmation email you received.
2. A WebEx window will open in your browser and you will be prompted to provide some identifying information.
3. After your identifying information has been entered, you should be logged into the Webex and able to see the visual portion of the training. Call the phone # included with your registration confirmation listed on this sheet with the corresponding training date.

To listen to the WebEx, you must be listening with a telephone. The sound will not come through the computer.

NEW

Intended Audience: Providers (No CEUs or CMEs available)

| Date | Time | Course Information |
|---|---------------|--|
| <i>All classes are scheduled for 45 minutes in duration</i> | | |

The Department of Health & Human Services Hierarchical Condition Category (HHS-HCC) model is the risk adjustment model utilized for the nonelderly population under the Affordable Care Act (ACA). This model differs significantly from the CMS-HCC model, reflecting the differences in the population. For more information, please visit: <https://www.cms.gov/CCIOP/Programs-and-Initiatives/Premium-Stabilization-Programs/index.html>
